DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/01/09 has been entered. In the RCE filed on 06/01/09, the following have occurred: claims 33, 39-45 and 48-50 have been cancelled and claims 1-32, 34-38, and 46-47 have been amended.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-32, 34-38, and 46-47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The applicant recites the limitation "the at least one computer providing for disclosure to potential counterparties over the at least one network terms for a first proposed trade of the interest." The

examiner searched the length and width of the applicant's specification, but failed to find a single passage where support for this limitation is provided. Clarification is required!

Response to Arguments

Applicant's arguments, filed on 06/01/09, with respect to claims 1-32, 34-38, and 46-47 have been fully considered and are persuasive. The previous art rejection has been withdrawn.
